

# DUSTEX VAC & FILTER SHAKER

## XD141-SV DUSTEX SHAKER VAC

- compact dust control vac
- electric filter shaker & cleaner
- large area cartridge filter
- cleaner work area & reduced clean up time
- reduced hazards through airborne dust
- effective dust control for fine dust residues
- suitable for coatings & paint dust

The new XD141-SV is a powerful dust extraction vac designed for the efficient collection of fine coatings, paint and steel dust

It features a 1400 watt hi-flow by-pass vacuum motor and internal cyclone separator

Filter performance is maintained with the internal filter vibrator that is operated by a switch on the vac head  
This effective vibrator keeps the filter cleaner for longer and extends the time between filter maintenance and replacement

The new Airjet is a powerful dust extraction vac designed for the efficient collection of fine coatings, paint and steel dust

It features a 1500 watt hi-flow by-pass vacuum motor and internal cyclone separator

Filter performance is maintained with the internal compressed air filter cleaner that is operated by a switch on the vac head

This effective blow back keeps the filter cleaner for longer and extends the time between filter maintenance and replacement

The vac is connected to a compressed air line and includes an automatic on-off switch that works with both electric and pneumatic power tools

Dust is collected in the stainless steel vac drum

### APPLICATIONS

- effective dust control
- for grinders & cutters
- diamond cutters & routers
- floor & wood sanders

### XD141-SV DUSTEX VAC 1400w

Weight 13kg

Size WxL 38x38cm

Height 80cm

Vacuum 215m<sup>3</sup>/hr

Noise level 71dBA

Voltage 230v

### MEC402 AIRJET DUSTEX VAC 1500w

Weight 17kg

Size WxL 40x45cm

Height 100cm

Vacuum 215m<sup>3</sup>/hr

Noise level 71dBA

Voltage 230v

## DUSTEX VACS

### DUSTEX SHAKER VAC, single motor, for steel, paint, coatings, fibreglass & wood dust

Stock no	Description	Power	Weight	Motor	Vacuum	£ ex VAT
360006	XD141-SV dustex vac	1400w	13kg	single	215m <sup>3</sup> /hr	299.00

### DUSTEX CYCLONE VACS, single motor, for steel, paint, coatings, fibreglass & wood dust

Stock no	Description	Power	Weight	Motor	Vacuum	£ ex VAT
360047	MEC402 airjet dustex vac	1500w	17kg	single	215m <sup>3</sup> /hr	459.00

## PRE-SEPARATOR CYCLONE DRUM

### PRE-SEPARATOR DRUM, removes 90% of dust before vac & improves filter efficiency

Stock no	Description	Weight	£ ex VAT
360009	pre-separator drum	10kg	95.00

# TWO & THREE MOTOR DUSTEX HEPA VACS

## TWO & THREE MOTOR DUSTEX VACS

- powerful bypass motor industrial vacuums
- polyester or hepa filters available
- dust control for power tools & machines
- surface preparation machines & floor sanders
- cleaner & more efficient working environment
- reduced hazards through airborne dust
- three stage high efficiency motors
- large area star filter with manual shaker

These dustex vacs use powerful two and three motor vacuums with a sturdy trolley that fits easily into an estate car

They feature independent bypass vacuum motors, cyclone separator, primary star type filter and secondary cartridge hepa filter

Initial separation is by the internal cyclone that removes the coarser particles. The second stage star filter removes 90% of the remaining dust

The final filter is either a 2 micron cartridge which is fitted as standard or the 1 micron Hepa filter

The units are fitted with a manual filter shaker

A pre-separator is available to further improve dust collection before it gets to the main vac and filter

### APPLICATIONS

- effective dust control
- for grinders & cutters
- diamond cutters & routers
- floor & wood sanders

#### XD402 DUSTEX VAC 2300w

Weight 35kg

Size WxL 58x68cm

Height 136cm

Vacuum 340m<sup>3</sup>/hr

Noise level 75dBA

Voltage 110v or 230v

#### XD403 DUSTEX VAC 3000w

Weight 37kg

Size WxL 58x68cm

Height 136cm

Vacuum 510m<sup>3</sup>/hr

Noise level 79dBA

Voltage 110v or 230v

## DUSTEX INDUSTRIAL MOTOR VACS

### DUSTEX CYCLONE VACS, with teflon coated filter, two stage motors, for steel, paint, coatings, fibreglass & wood dust

Stock no	Description	Power	Weight	Motor	Airflow	£ ex VAT
360040	XD402 dustex vac	2300w	35kg	twin	340m <sup>3</sup> /hr	899.00

### DUSTEX CYCLONE VACS, with teflon coated filter, three stage motors, for steel, paint, coatings, fibreglass & wood dust

Stock no	Description	Power	Weight	Motor	Airflow	£ ex VAT
360043	XD403 dustex vac	3000w	37kg	triple	510m <sup>3</sup> /hr	999.00

### CYCLONE PRE-SEPARATOR, for large volumes of steel, coatings & paint dust

Stock no	Description	£ ex VAT
360059	pre-separator drum	249.00

### DUST EXTRACTION HOSE, for use with dustex vacs

Stock no	Description	ID	Length	£ ex VAT
980502	2" hose assembly with end cuffs	50mm	5m	30.00
980501	2" hose	50mm	per 1 metre	6.00

### REPLACEMENT FILTER, long life, for steel & paint dust

Stock no	Description	Size Ø	Length	Filter	£ ex VAT
367102	star teflon coated filter	44cm	37cm	2.5 micron	79.00
367101	star teflon coated filter & frame	44cm	37cm	2.5 micron	109.00
367103	inner cartridge filter	18cm	17cm	2.0 micron	39.00
367105	inner cartridge Hepa filter	18cm	17cm	0.3 micron	79.00

**NEW**

## DUST MUZZLE™ GUARDS

- transparent & flexible dust control guards
- two guard diameters available
- for 4½" to 5" discs
- for 6" to 7" discs & cups
- range of collar sizes
- cleaner work area & reduced clean up time
- reduced hazards through airborne dust
- effective dust control for fine dust residues
- suitable for steel, coatings & paint dust

The Dust Muzzle uses the centrifugal forces created by the grinding wheel to push the dust out of the exhaust port

When connected to a 1500 watt dustex vac the Dust Muzzle can remove up to 95% of the pollutants at the point of origin

The Dust Muzzle™ is a flexible, transparent polypropylene dust collection shroud that will retrofit most electric and air powered grinders and sanders. Construction site operators are required to demonstrate that nuisance dust and fine particle emissions from their sites are effectively controlled. Using a Dust Muzzle will prolong the life of your electric tools by keeping abrasive steel dust away from the motor and bearings.

There are a range of different collar sizes for both 4½", 5" and 7" discs that will fit the most popular grinders and sanders from Bosch, Hitachi, Makita and De Walt.

Guards are also produced for air powered tools.

The collar can be trimmed to suit the depth of the abrasive disc or diamond cup and the front edge can be trimmed back for edging.

## APPLICATIONS

- muzzle & control dust
- rust & paint dust
- grind & sand dustfree
- sand grp & plastic
- smooth wood & mdf

365500  
5" dustmuzzle  
& sander
