

EUF100-GRP TRIMMER DISC GRINDER

- heavy duty trimmer-grinders
- for grp surfaces, yacht & ships hulls
- stripping paint & anti-fouling
- prepping & renovating gelcoat
- trims & shaves grp, gelcoat & wood
- removes bitumens, sealants & glues
- works on aluminium without clogging
- powerful compact grinder
- 1500 watt motor
- grind, level, reduce & finish
- removing thick elastomeric wall coatings
- dust free with dustex vac

The POWERPREP EUF100 is a powerful 1500 watt 4" grinder and grp trimmer

The new tungsten segment trimmer discs are excellent for prepping a wide range of difficult to remove coatings including thick, elastomeric wall coatings, cement adhesive, bitumens and hardened epoxies and stone paints

The shaver disc is easy to use and control when trimming and shaping grp

The disc will trim back and shape hard surfaces polymer, wood, grp and alloys and also soft materials including rubber, silicone, sealants, adhesives and bitumens

APPLICATIONS

- prepping grp & gelcoat
- removing coatings & elastomerics
- hard epoxy & marine paints
- soft and gluey adhesives & bitumens
- cements & adhesives
