

# GROUT POWER SPONGE

## GROUT POWER SPONGE

- continuous band sponging machine
- for sponging off cement grouts
- quickly cleans off grout
- from quarry tiles & pool surrounds
- granite sets & paviors
- leaves uniform & strong joint
- for external pavements & pedestrian areas
- saves up to 70% of grouting time & labour

The machines use a continuous sponge band that is fed through a water bucket and rollers; the excess sludge and water is squeezed out leaving the sponge clean to repeat the cycle

The Schwammfix machines are for cleaning cements and grouts from quarry tiles, external paviors, natural stone and granite sets

The grout is pumped or poured into the joint; the Schwammfix machine is used to pass over the newly grouted area and to sponge off the residue leaving a clean surface and compact joint

The method improves the joint quality, avoiding washing away the cement in the joint

The machines will mechanically do the time consuming "hands and knees" job of removing cementitious jointing grout

## APPLICATIONS

- cleaning tiles of cement residues
- sponging off grouts
- finishing granite sets

SWM620P Power Sponge 4hp

Weight 62kg

Size WxL 55x97cm

Height 88cm

Sponge width 36cm

Prep rate 150m/hr

Vibration level 2.5m/s

Noise level 76dBA

SWM620

## GROUT POWER SPONGE

- for cement & epoxy grouts
- quickly cleans grout from quarry tiles
- granite sets & paviors
- leaves uniform & strong joint
- for external pavements & pedestrian areas
- saves up to 70% of grouting time & labour

The Schwammfix 880P is a heavy duty version of the 620P and is for cleaning cements and grouts from quarry tiles, external paviors, natural stone and granite sets

The machines will mechanically do the time consuming "hands and knees" job of removing cementitious grouts

The machines use a continuous sponge band that is fed through a water bucket and rollers; the excess sludge and water is squeezed out leaving the sponge clean to repeat the cycle

The sponge cleaning method avoids washing away the cement content in the joint and leaves a uniform, compact joint

Finishing rates up to 200m<sup>2</sup>/hr

### APPLICATIONS

- cleaning tiles of cement residues
- sponging off grouts
- finishing granite sets

SWM880P Power Sponge 4hp

Weight 80kg

Size WxL 60x110cm

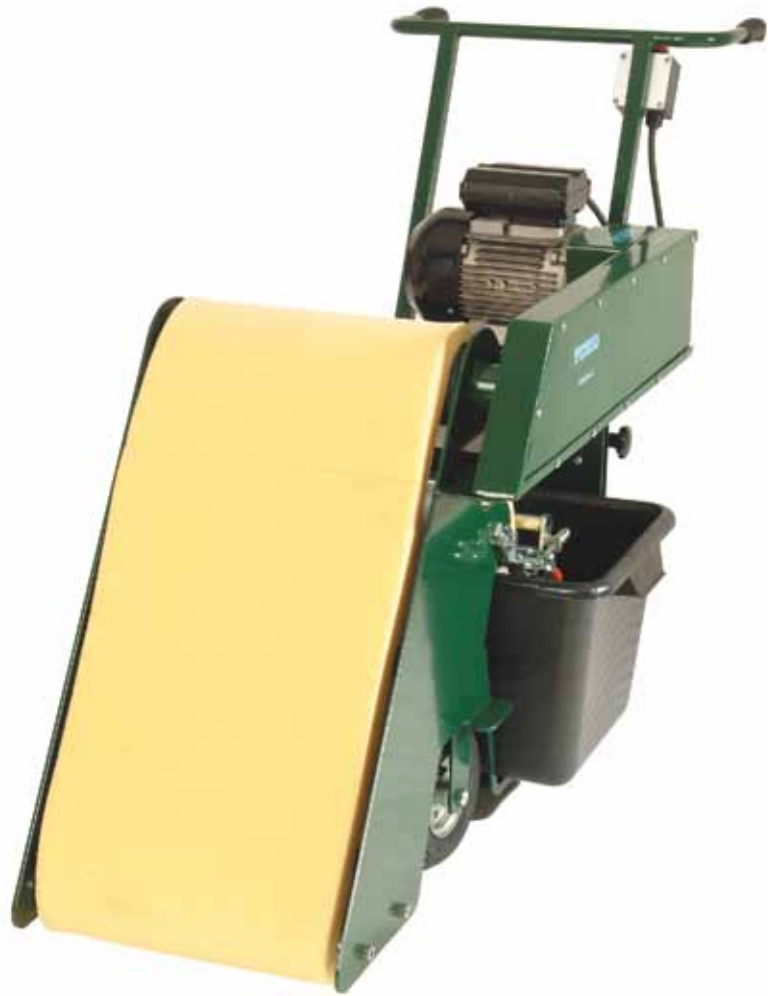

Height 96cm

Sponge width 36cm

Prep rate 200m/hr

Vibration level 2.5m/s

Noise level 76dBA
