

MARSHALLTOWN GOLDEN STAINLESS TROWELS

GOLDEN STAINLESS STEEL TROWELS

- USA's leading trowel brand
- new golden finish stainless steel
- trowel is heat treated & tempered
- broken in trowels are ready to use
- Permashape trowels will always keep shape
- Durasoft handles are moulded

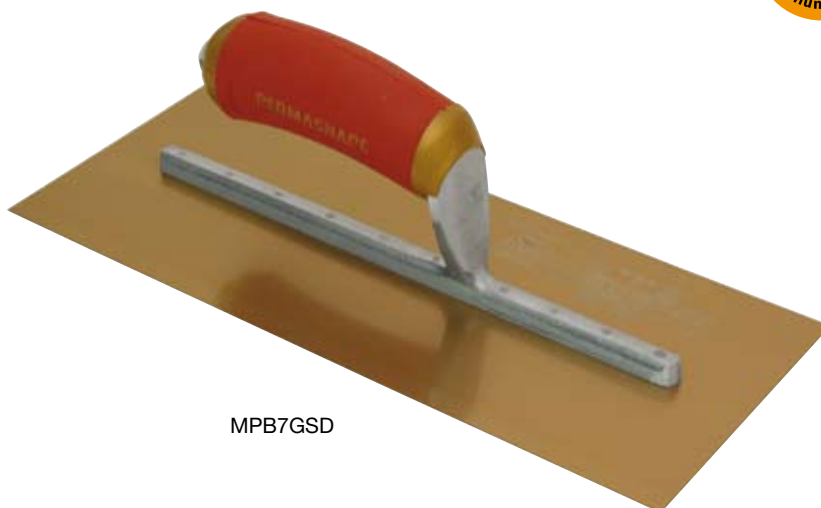

Marshalltown are America's leading trowel producer and supply a wide range of tools for the plaster, drywall and cement trades

The new golden stainless steel finish is achieved by heat treatment and it ensures that the trowel remains flexible during its life

Permashape trowels are produced from special steel sheet to guarantee that they retain their shape; the new Permashape trowels are now supplied with a gold colour handle front

Broken in trowels have their edges mechanically finished so that they can be used straight away on finish plasters

The Durasoft handles are moulded composite rubber and are hard wearing
