

CORNER & ANGLE TROWELS

ADJUSTABLE ANGLE TROWEL

- light gauge stainless steel, rust free
- fully adjustable down to 90°
- for splayed internal angles

The adjustable angle trowel will be useful in every plasterers tool bag. It is for matching and finishing splayed angles

The square and angle tools are produced from stainless steel and are for setting accurate corners around windows, frames and reveals

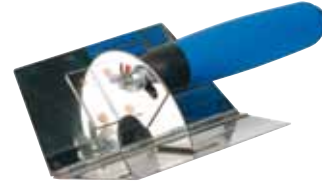

The corner square is for producing clean internal 90° angles
