

PLASTIC TROWELS

PLASTIC TROWELS

- plastic faced trowels
- for white cements & renders
- non marking on epoxies
- special finishes on render

Plastic trowels are used mainly to avoid surface discolouration and blade transference from steel trowels

They are also used to achieve special finishes with external renders, the plastic blade gives a different finish to steel trowelling

The trowel with alloy shank is supplied with flexible clear blade for white cements or stiffer grey blade for epoxies

The trowel with orange plastic handle has a nylon blade that is solvent resistant and can be used on decorative finishes and epoxy quartz

The range of trowels with black soft handles are for external render finishes and interior decorative coatings

Other plastic trowel blades are available for differing surface finishes

PLASTIC TROWELS

PLASTIC TROWEL, white nylon blade, solvent resistant, for use on white cements & resins

Stock no	Description	Size	Handle	£ ex VAT
269511	white nylon plastic trowel 11"	280x140mm	plastic, orange	7.95

PLASTIC TROWEL, smooth plastic blade for finishing top coat renders

Stock no	Description	Size	Handle	Grain size	£ ex VAT
231802	white plastic trowel 11"	280x140mm	soft, black	3-4mm	7.95

PLASTIC TROWELS, medium hard plastic blade for finishing top coat renders

Stock no	Description	Size	Handle	Grain size	£ ex VAT
231812	cream plastic trowel 11"	280x140mm	soft, black	2-3mm	7.95

PLASTIC TROWEL, hard plastic blade for finishing top coat renders

Stock no	Description	Size	Handle	Grain size	£ ex VAT
231816	light grey plastic trowel 11"	280x140mm	soft, black	1-2mm	7.95

PLASTIC TROWEL, hard plastic blade for finishing top coat renders

Stock no	Description	Size	Handle	£ ex VAT
231814	dark grey plastic trowel 11"	280x140mm	soft, black	7.95

PLASTIC TROWEL, clear plastic blade, for finishing white cement finishes & special renders

Stock no	Description	Size	Handle	£ ex VAT
231817	clear plastic trowel 11"	280x140mm	soft, black	7.95

FLOATS

FLOATS

- large range of shapes and sizes
- diamond face for backing coats
- cross grain for sand & cement
- smooth face for epoxies

The range of Refina floats is one of the largest available combining three different types of plastic and face

The ABS diamond face floats are excellent for modern backing coating plasters

The PU cross grain floats are for sand and cement setting, render and screed

The smooth hard faced float is ideal for epoxies

231919	float 19", wide shape	480x240mm	cross grain	9.95

DARBY FLOAT, PU plastic for float finishing large areas

Stock no	Description	Size	Face	£ ex VAT
231912	float 48", long shape	1200x120mm	cross grain	22.00

HAWK

PLASTIC HAWK, one piece polyurethane plastic

Stock no	Description	Size	Face	£ ex VAT
671313	hawk 13"	330x330mm	smooth	10.95

PLASTER SPONGE FLOATS

SPONGE FLOATS

- many sponge types & sizes
- fine, open, hard or soft faces
- for finishing plaster & cement surfaces

The orange sponge floats are produced with fine and medium 20mm thick sponge faces

They are the trade standard for sponging up plaster surfaces before final trowelling

The large sponge float with 6ft handle is for upper wall and ceiling work

The smaller floats with denser sponge faces are for use on wetter plaster or cement surfaces

Sponge floats are often used in conjunction with a water brush to dampen the surface or a large stainless steel spatula to smooth and level the surface

Use a waterproof contact adhesive or aerosol spray adhesive to fix replacement sponges

SPONGE FLOATS, small & narrow shapes, with durable sponge faces

Stock no	Description	Size	Colour	Sponge	£ ex VAT
261310	small sponge float 8"	215x140mm	orange	medium	7.95
261314	narrow sponge float 11"	240x100mm	orange	medium	7.95
261312	long sponge float 16"	400x100mm	orange	medium	7.95

SPONGE FLOATS, long shape, with durable sponge faces

Stock no	Description	Size	Colour	Sponge	£ ex VAT
261110	long sponge float 18"	460x160mm	orange	medium	12.95
261112	wide sponge float 17"	430x260mm	orange	medium	17.95

CEMENT SPONGE FLOATS

SPONGE FLOATS

- range of sponge types & sizes
- fine, medium and hard sponge faces
- for finishing plaster & cement surfaces

The blue sponge floats have a medium hard and dense sponge face with fine 15mm thick sponge face

The grey sponge floats have a denser and harder sponge face

PLASTER & ARTEX BRUSHES

STIPPLE BRUSHES FOR ARTEX

- rubber stipplers for textured ceilings
- for producing swirls & patterns

These stipple brushes are made with rubber fingers and are for producing swirl finishes, patterns and textures

The large 13" stipple brush is for use with a wooden handle

The water brushes are produced from pure mixed bristle and are used by plasterers for wetting down before final sponging or trowelling

The brushes are also for applying texture coatings and exterior masonry paints
