

# MORTAR POINTING & SEALANT GUNS

## TYROLEAN RENDER SPRAY GUN

- site robust plastic housing
- longlife inner hedgehog
- spares available ex stock
- for manually applying tyrolean renders
- bagged external textures & Cullamix
- produced in the UK

The green tyrol spray gun is a manually operated tool for applying cement based textured renders, tyrol finish and Cullamix

The material is mixed and trowelled into the front of the spray gun and then flicked onto the wall by turning the handle

The tyrol gun should be cleaned out with water after use

The full range of spares are available

The stainless steel harling trowels are for throwing spar dash and pebble dash onto newly applied sand and cement renders

## MORTAR & GROUT GUNS

- easy to use barrel guns
- leveraged trigger mechanism
- plunger & spares available
- for applying brick & mortar joints
- lime mortars & traditional materials
- injecting cements & applying tile grouts

The guns are simple to use for mortar pointing

The skeleton type frame with trigger mechanism applies an even consistent mortar bead. The plastic barrels and nozzles are replaceable and easy to clean

The gun should be used with pre-bagged pointing materials or well mixed and plasticised mortars made with soft or river bed sand
